

Toxic Back Packs

It's chilly this morning here in Vermont -- and school is about to begin. Sigh- or hooray - depending on your perspective.

I just received a tip about backpacks from IDEAL BITE. Since back packs are a daily item of "clothing" for many kids and plenty of adults I figured it best to share this tip- pronto.

If anyone in your life uses a backpack regularly, do have a look at this info...

http://www.idealbite.com/tiplibrary/archives/monkey_on_their_back_back_to_school_week/

To all- wishing you enjoyable last days of August!
